

## SYMPOSIUM 2 – LIFESTYLE DISEASES

### FOCUS: OBESITY

---

## Cholesterol - Who, What, When and How to Screen

Dr Fung En Ching

Department of Laboratory Services, Ministry of Health, Brunei Darussalam

This talk summarises the rationale and accompanying evidence underpinning the current recommendations for cholesterol screening in the population. Specific issues addressed include non-fasting lipids, non-HDL, cholesterol/HDL ratio, familial causes of dyslipidaemia, biological source of variation and frequency of testing.
