# THE 15TH INTERNATIONAL SUMMER MEDICAL SCHOOL PROGRAMME 2025

## PROGRAMME BOOKLET

# FOREWORD

---

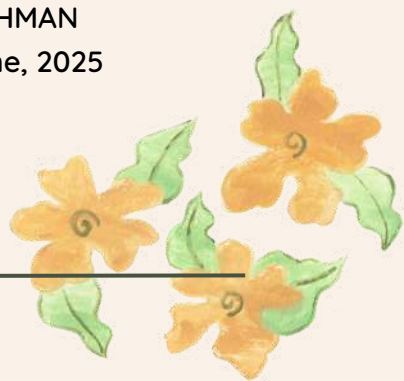

It is with great enthusiasm and honour that we convene to celebrate the 15th International Summer Medical School (ISMS) Programme at the Pengiran Anak Puteri Rashidah Sa'adatul Bolkiah Institute of Health Sciences (PAPRSB IHS), Universiti Brunei Darussalam (UBD). This year's programme marks the continuation of a remarkable journey and the 21st year of our cherished partnership with Kagawa University, a collaboration that has thrived since 2005, fostering academic excellence, cultural exchange, and enduring friendships.

The ISMS Programme remains a vibrant platform for nurturing future medical leaders, blending rigorous academic exploration with immersive cultural experiences. We warmly welcome the medical students from Kagawa University's Faculty of Medicine, inviting them to embrace Brunei's rich heritage through river cruises, visits to cultural sites, and explorations of our museums, alongside the heartfelt hospitality of our community. Over the coming three weeks, participants will engage in a dynamic programme featuring clinical visits, research discussions, and cultural activities, forging connections that transcend borders and disciplines.

Themed around innovation in global health, this year's ISMS Programme reflects our shared commitment to addressing pressing healthcare challenges through collaboration and creativity. Building on our legacy of joint research in areas such as rare sugars and public health, we aim to inspire new ideas and solutions that benefit our communities and beyond. As we celebrate over two decades of partnership, we look forward to strengthening these ties and creating opportunities for future generations to thrive.

On behalf of the organising committee, I extend sincere gratitude to our faculty, students, and distinguished guests, including His Excellency Mr. Kikuta Yutaka, UBD Vice Chancellor Dr. Hazri Haji Kifle, Dean of PAPRSB IHS Professor Kenneth Yuh Yen Kok, and our esteemed colleagues from Kagawa University: Professor Takashi Kusaka, Associate Professor Saneyuki Yasuda, Professor Tomoko Ichiki, and Professor Takashi Ogawa. Your unwavering support has made this event possible. May the 15th ISMS Programme serve as a beacon of unity, innovation, and shared purpose, illuminating the path toward a healthier, more connected world.

DR. POH HUI GOH, DR. ZAIDAH RIZIDAH MURANG, & DR. HANIF ABDUL RAHMAN  
Coordinators of the 15th International Summer Medical School Programme, 2025  
PAPRSB Institute of Health Sciences  
Universiti Brunei Darussalam

# WELCOME ADDRESS

---

It is with great honour and immense pleasure that I extend a very warm welcome to all participants of the 15th International Summer Medical School, organised by the PAPRSB Institute of Health Sciences, Universiti Brunei Darussalam.

This occasion represents a significant milestone in the enduring partnership between Faculty of Medicine, Kagawa University, and the PAPRSB Institute of Health Sciences, Universiti Brunei Darussalam, an academic collaboration that has grown in strength and substance over the past 21 years. Our shared commitment to advancing medical education, research and cultural exchange continues to serve as a model of international cooperation in higher education.

We are particularly delighted to welcome our visiting students and faculty from Kagawa University. Your presence here reflects not only the strength of our bilateral ties, but also a mutual aspiration to cultivate globally competent, culturally attuned and socially responsible healthcare professionals. This programme, we believe, provides a unique and meaningful platform for intellectual exchange, clinical exposure and cross-cultural engagement, elements that are ever more important in today's interconnected world.

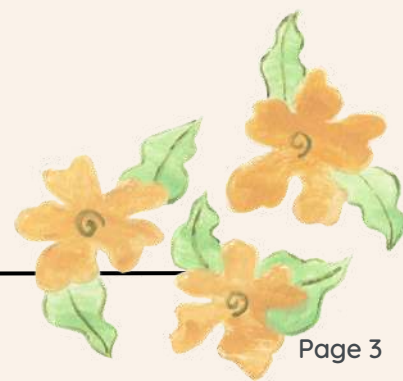

At the PAPRSB Institute of Health Sciences, we remain steadfast in our commitment to supporting this longstanding collaboration. We believe that such partnerships are instrumental in enriching academic discourse, enhancing student learning and fostering a spirit of international understanding and solidarity.

May this Summer School serve as a fruitful and inspiring experience for all participants. We hope that the knowledge gained, relationships built and perspectives exchanged over the course of this programme will continue to shape your journey in medicine and beyond.

Once again, I warmly welcome all of you to Universiti Brunei Darussalam and to our Institute. We look forward to a productive and memorable programme ahead.

Thank you very much.

PROFESSOR KENNETH YUH YEN KOK  
Dean  
PAPRSB Institute of Health Sciences  
Universiti Brunei Darussalam

# THE 15TH INTERNATIONAL SUMMER MEDICAL SCHOOL

## OPENING CEREMONY

*29th July 2025, 4 Safar 1447  
Lecture Theatre 2, IHS Extension Building*

**8:00 AM Arrival of the 15th ISMS Committee Members**

**8:30 AM Arrival of Senior Management Team, UBD Principal Officers, Kagawa University Delegates, and Guests**

**9:00 AM Arrival of the Guest of Honour**

His Excellency Mr. Yutaka Kikuta  
Japanese Ambassador to Brunei Darussalam

**Recital of Surah Al-Fatihah and Doa Selamat**

**Welcoming Speech by Dr Poh Hui Goh**

Co-coordinator of the 15th ISMS Programme

**Opening remarks by Professor Dr Kenneth Yuh Yen Kok**

Dean of PAPRSB Institute of Health Sciences, Universiti Brunei Darussalam

**Speech by Professor Takashi Kusaka**

Chairperson of the School of Medicine, Member of the International Contribution & Exchange of Faculty of Medicine, Kagawa University

**Officiating Ceremony by Guest of Honour**

**Presentation of Souvenirs to Student Participants of the 15th ISMS Programme**

By Guest of Honour

**Presentation of Souvenirs to Professor Takashi Kusaka, Professor Tomoko Ichiki, Professor Takashi Ogawa, Associate Professor Saneyuki Yasuda of Faculty of Medicine, Kagawa University**

By Guest of Honour

**Presentation of Souvenirs to the Guest of Honour**

By Assistant Vice Chancellor (Education) of Universiti Brunei Darussalam, Yang Mulia Professor Dr Haji Noor Azam bin OKMB Haji Othman.

**Photo Session**

**Refreshments**

# PROGRAMME OVERVIEW

---

## Introduction

The International Summer Medical School (ISMS) Programme is an exchange programme organised annually as part of the collaborative program between PAPRSB Institute of Health Sciences (IHS), Universiti Brunei Darussalam, and Faculty of Medicine, Kagawa University, since its initiation in 2006.

The ISMS programme is aligned with United Nations (UN) Sustainable Development Goals (SDGs), which are to:

- Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.
- Strengthen the means of implementation and revitalise the Global Partnership for Sustainable Development.

## Mission

Developing the Society Through Cultivation of Intellect and Culture Through Collaborative Activities

## Objectives

Students participating in the programme will be able to:

- Experience life as a medical student in PAPRSB Institute of Health Sciences through variety of academic activities i.e. lectures, Problem Based Learning (PBL), clinical and communication skills, large group sessions, and tutorials.
- Gain clinical knowledge and hands-on experience from clinical visits, placements and clinical skills sessions.
- Enhance English language proficiency and presentation skills.
- Forge friendship with Brunei Students in UBD through buddy system and BJFA-UBD Chapter Club members towards the exchange and sharing of cultures and tradition between Japan and Brunei.
- Experience Brunei's nature through social outdoor activities and recreational visits to popular landmarks in Brunei.
- Experience and learn Brunei culture by participating in homestay, traditional games and music, and interactive cultural exchange.

# PROGRAMME DETAILS

## Problem Based Learning (PBL) & Tutorials

Problem Based Learning (PBL) is the main method of learning of Medicine in UBD. It allows students to explore PBL methods and enhance their communication and teamwork skills.

There will be two PBL cases covered with Dr Solachuddin on the case of Breast cancer, on the 30th July and 5th August. Students are expected to equally and actively contribute to the group discussions and respectfully listen to others' points of view and ideas.

## Lecture

The lecture by Dr Amalina and Dr Mas Rina on the 4<sup>th</sup> of August will give an overview of the PBL cases and cover the cell cycle, DNA repair mechanisms, and how genetic mutations contribute to common disorders such as BRCA-related breast cancer. The lecture is aimed to supplement the PBL cases reviewed and to encourage students to learn and do research by themselves. This will be a joint session with the Year 2 Medicine students.

## Clinical Visits

These clinical visits aim to expose the students to the clinical settings in Brunei Darussalam. Accompanied by Dr Faye, students will visit RIPAS hospital and other health centres in Bandar Seri Begawan. Students are required to be punctual, and are encouraged to talk to patients and staff and ask questions.

It is advised that students adhere to proper attire (wearing nametags) and regulations of the respective health centres. Dress code is smart: long sleeves and long trousers/long skirt for females.

## Clinical and Communication Skills (CCS)

Communication and Clinical Skills allows for students to practice interaction and communication skills with patients and other various clinical skills. During the CCS session on 1st August with Dr Faye, students will be taught the clinical skills relevant to the PBL cases studied including the demonstrating skills in evaluation of a breast lump on a mannequin.

# PROGRAMME DETAILS

## First Aid Briefing & Demonstration

Students will be involved in a demonstration session with the basic life support team on 8th August who will teach and demonstrate to them the basics of First Aid. The session will begin with a brief introduction to medical and environmental emergencies. Students will also learn essential skills that are useful and can be life-saving in various medical emergencies such as injuries, sprains, and allergic reactions. Additionally, students will also be shown on the procedures to mitigate environmental emergencies, such as in a heatstroke or in the case of animal bites or poison. A major focus of the session will be the demonstration and practice of Cardiopulmonary Resuscitation (CPR) for unresponsive casualty.

## Written Assessment & Objective Structured Clinical Examination (OSCE)

A short written assessment and an OSCE (practical) exam will be held on 6th and 7<sup>th</sup> August respectively. These assessments aim to test the knowledge and skills that the students have acquired during the academic sessions of the programme. Briefing on these assessments will be delivered by Dr Faye on 28<sup>th</sup> July.

## Oral Presentation

Students are expected to present interesting aspects of their academic or cultural experience and important issues they have learned during the ISMS programme. The presentation will be held on 12<sup>th</sup> August and the members of the PAPRSB Institute of Health Sciences will be invited to attend.

This session provides the students an opportunity to display their English proficiency and public communication skills.

## Programme Feedback Session

This session will allow students to share their opinion or give suggestions for further improvement of the ISMS programme. It will be held on the 12<sup>th</sup> August.

# SOCIAL ACTIVITIES

## Opening Ceremony

This event welcomes the participating students of the 15th International Summer Medical School (ISMS) Programme at PAPRSB Institute of Health Sciences, Universiti Brunei Darussalam.

Date: Tuesday, 29th July 2025

Venue: Harvard Style Lecture Theatre 2, PAPRSB Institute of Health Sciences

## Kampong Ayer Boat Ride

Kampong Ayer (the Water Village) is one of Bandar Seri Begawan's main tourist attractions. It is situated over the Brunei Bay and all the buildings are constructed on stilts above the river. Students will experience this national heritage by taking a boat or water taxi through the Brunei River, and visiting a stilt house. If you are lucky, you might catch a glimpse of the proboscis monkeys that are prominent along the mangroves!

## Brunei River Cruise

The Brunei River Cruise offers a refined and immersive experience that showcases the rich cultural heritage and natural beauty of Brunei Darussalam. As guests travel along the historic Brunei River, they are presented with a unique perspective of the nation's capital—one that seamlessly blends tradition, architecture, and biodiversity.

## Arts & Handicraft Centre

The Brunei Arts and Handicrafts Centre is a governmental centre that was established in 1975 and is coordinated by the Brunei Museum. Its role is to preserve Brunei traditional arts and crafts, and train local craftsmen and weavers. The centre displays and sells various types of handicraft products at the exhibition and sales gallery.

## Picnic (Berakas Forest Reserve & Taman Mahkota Jubli Emas)

A picnic at Berakas Forest Reserve or Taman Mahkota Jubli Emas offers a refreshing escape into two of Brunei's most scenic locations. At Berakas Forest Reserve, visitors can relax under the shade of tall casuarina trees and enjoy the sound of nearby waves. In contrast, Taman Mahkota Jubli Emas, located in the heart of the capital, provides open green spaces with picturesque views of the iconic Sultan Omar Ali Saifuddien Mosque and Kampong Ayer, making it ideal for casual gatherings and sunset leisure.

# SOCIAL ACTIVITIES

## Brunei Energy Hub Dermaga Diraja

Brunei Energy Hub Dermaga Diraja was established in 2023. It is an interactive knowledge hub that enables visitors to explore what life in Brunei was like before the discovery of oil in 1929 through its multiple galleries. Students will have the opportunity to learn about the oil & gas industry today and the national strategies that are in place for a greener future with affordable and sustainable energy.

## Ambuyat Lunch Outing

An Ambuyat lunch outing offers a unique cultural and culinary experience that highlights Brunei's rich heritage. Ambuyat, a traditional Bruneian delicacy made from sago starch and enjoyed with a variety of flavourful side dishes and dipping sauces, is best appreciated in a communal setting that encourages sharing and togetherness. This outing not only allows participants to savour authentic local cuisine, but also to engage in the traditional way of eating using a bamboo fork called *candas*, making it an interactive and memorable experience.

## Tasek Lama Hiking Activity

Hiking is a popular past time activity in Brunei. At Tasek Lama Recreational Park, students can hike through the greenery or have a peaceful walk to a small waterfall and a large reservoir.

## Eco Ponies Garden

Eco Ponies Garden is a quiet and relaxing place in the green rainforest of Lamunin, Tutong. It is known for its eco-friendly farming and tasty traditional village food. Here, you can enjoy the simple life, just like in the old days. Wake up to the sound of birds in the morning or listen to insects at night. During certain times of the year, you might even smell the sweet scent of durians in the air. It's a perfect place for anyone who loves nature and wants to enjoy peace and fresh air.

## Closing Ceremony

The Closing Ceremony of the ISMS Programme will be held in the evening of 11<sup>th</sup> August. This ceremony serves as a farewell event for Kagawa students who participated in the ISMS programme. Attendees will be entertained with social and cultural performances by Kagawa students and IHS student buddies.

# USEFUL MALAY WORDS

English	Malay
Good morning	Selamat pagi
Good afternoon	Selamat petang
Good night	Selamat malam
